

Snow blower

TSX

Technical Specification

Double stage snow blower to remove snow from narrow roads, squares, parkings and walkways.

Bolted lower cutting edge made by wear resistant steel.

Transmission made by high performances **hydraulic pistons motor**.

Possibility to **change the displacement** of hydraulic

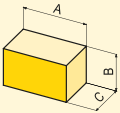

pistons motor (automatic or manual), depending by job conditions to have always **optimal performances**.

Icebreaker HARDOX helixes.

Open structure to trim and cut the ice.

Hydraulic chute 270° rotation with **hydraulic upper flap** to set the orientation and distance of blow.

Snow blower
